Dear Mr. Dalton:

Attached is a permit to continue to operate the CPFilms, Inc. plant located in Fieldale, Virginia pursuant to 9 VAC 5 Chapter 80 of the Virginia Regulations for the Control and Abatement of Air Pollution. The effective date of this Title V Operating Permit renewal is March 12, 2008 with an expiration date of March 11, 2013.

This permit contains legally enforceable conditions. Failure to comply may result in a Notice of Violation and civil penalty. Please read all permit conditions carefully.

In evaluating the application and arriving at a final decision to issue this permit, the Department deemed the application complete April 19, 2006 and solicited written public comments by placing a newspaper advertisement in the Martinsville Bulletin on January 16, 2008. The thirty-day comment period (provided for in 9 VAC 5-80-270) expired on February 15, 2008 with no comments received in this office from either the general public or the EPA.

This approval to operate does not relieve CPFilms, Inc. of the responsibility to comply with all other local, state, and federal permit regulations.

Issuance of this permit is a case decision. The Regulations, at 9 VAC 5-170-200, provide that you may request a formal hearing from this case decision by filing a petition with the Board within 30 days after this permit is mailed or delivered to you. Please consult that and other relevant provisions for additional requirements for such requests.
